as a follow up to the bestselling killing kebble an underworld exposed 2010 the new book from mandy wiener ministry of crime an underworld explored examines how organised crime gangsters and powerful political figures have been able to capture the law enforcement authorities and agencies these various organisations have been eviscerated hollowed out and left ineffective they have been infiltrated and compromised and as a result prominent underworld figures have been able to flourish in south africa setting up elaborate networks of crime with the assistance of many cops the criminal justice system has been left exposed and it is crucial that the south african public knows about the capture that has occurred on different levels

to date the focus in the field of sustainable building has been on new building design

however existing residential buildings inflict great environmental burden through three causes continuous energy consumption regular building maintenance and replacements this publication analyses and compares these three causes of environmental burden and shows that material resources needed for replacements generally have a limited potential to reduce environmental impact reducing energy consumption for climate control and electrical appliances is much more effective according to the author sustainable measures should be tested for shifts in the kind of environmental impact caused due to the use of alternative types of energy resources and altered material quantities the sustainability of the electricity supply is essential to decrease the total environmental impact of the residential building stock
