frederic c schaffer challenges the assumption often made by american scholars that democracy has been achieved in foreign countries when criteria such as free elections are met elections he argues often have cultural underpinnings that are invisible to

outsiders to examine grassroots understandings of democratic institutions and political concepts schaffer conducted fieldwork in senegal a mostly islamic and agrarian country with a long history of electoral politics schaffer discovered that ideas of demokaraasi held by wolof speakers often reflect concerns about collective security many senegalese see voting as less a matter of choosing leaders than of reinforcing community ties that may be called upon in times of crisis by looking carefully at language schaffer demonstrates that institutional arrangements do not necessarily carry the same meaning in different cultural contexts democracy in translation asks how social scientists should investigate the functioning of democratic institutions in cultures dissimilar from their own and raises larger issues about the nature of democracy the universality of democratic ideals and the practice of cross cultural research

company democracy is often misunderstood in the business context as democracy is usually related to politics in this book the authors present a different dimension they focus first on democracy from an organizational culture perspective and then offer employees opportunities to understand and apply democracy from the company floor level the company democracy model cdm is an industry wide practical methodology for knowledge management utilization under applied philosophical thinking the model progresses through a framework in which an organizational evolutionary spiral method empowers the creation of knowledge based democratic cultures for wise and effective strategic management and leadership this new innovative methodology supported with techniques and processes can gain create many ideas insights innovations new products and services that can benefit a company one purpose of using the model is to create a robust conceptual framework as a theoretical basis for a business strategy that promotes sustainable continuous and democratic development another purpose is to emphasize the importance of intellectual capital and compare capital related and human related business issues in shaping a company s competitiveness profitability productivity performance and shared value a third purpose is to use its symbolic infrastructure that builds solid democratic systems for viable business development and management finally the described purposes give the reader new ideas to change and improve the design of business activities in a collective and modern democratic way

it is difficult to overstate the importance of personal consumption both to individual consumers and to the economy while consumer

are recognized as valuing market goods and services for the activities they can construct from them in the frameworks of several disciplines consequences of the characteristics of goods and services they use in these activities have not been well studied in the discourse to follow i will contrast knowledge yielding and conventional goods and services as factors in the construction of activities that consumers engage in when they are not in the workplace consumers will be seen as deciding on non work activities and the inputs to these activities according to their objectives and the values and cumulated skills they hold i will suggest that knowledge content in these activities can be efficient for consumer objectives and also have important externalities through its effect on productivity at work and economic growth the exposition will seek to elaborate these points and contribute to multi disciplinal dialogue on consumption it takes as its starting point the contention that consumption is simultaneously an economic and social psychological process and that integration of content can contribute to explanation

why are some countries more democratic than others analyzes a global sample of colonies to explain countries different experiences

who governs is a central question in political science typically political scientists address this question by relying upon either empirical analysis which explains existing political practices or normative analysis which orescribes ideal politcal practices
